

SARCOMA RESEARCH SUNDOWNER

SUPPORTED BY

HOSTED BY

A networking event for all WA researchers and clinicians with an interest in sarcoma

Tuesday 7th December: 6:00pm - 7:30pm Harry Perkins Institute of Medical Research

Ground Floor, Seminar room G24 and Foyer, 6 Verdun Street, Nedlands, WA 6009

Snapshot presentations by local sarcoma researchers:

- **Prof. Delia Nelson** (Curtin Health Innovation Research Institute): *Translating preclinical cancer immunotherapy studies into veterinary and human oncology: a serendipitous encounter with canine sarcoma*
- **Prof. Pilar Blancafort** (Harry Perkins Institute of Medical Research): *Genome engineering approaches to target sarcomas*
- **Shahama Taifour** (PhD Student, Harry Perkins Institute of Medical Research): *Targeting the oncogenic fusion EWSR1-FLI1 in Ewing sarcoma using the epigenetic editing tool "Epi-CRISPR"*
- **A/Prof. Georgia Halkett** (Curtin Health Innovation Research Institute): *Exploring the role that a community helpline support professional could play for patients diagnosed with sarcoma and their carers*
- **Prof. Sulev Kõks** (Perron Institute / Murdoch University): *Transcriptome analysis paves the way for the RNA therapeutics*
- **Dr. Rupert Hodder** (Sir Charles Gairdner Hospital): *Insights into Surgery for Abdominal Sarcomas*

RSVP by Friday 3rd December by responding to the [eventbrite](#) invitation

Unable to attend but still want to participate?   Connect with the sundowner via the [zoom](#)  link.
