

Are you willing to share your children's experiences of sibling bereavement?

My name is Jess and I am a 4th year Psychology honours student at Curtin University conducting a research project under the supervision of Associate Professor Moira O'Connor and co-supervisor Jenny Davies.

What is the aim of this research?

The aim of this study is to explore the parental perception of a child's bereavement experiences following the loss of a sibling diagnosed with cancer, with a focus on children between the ages of 4 and 12.

What does participation involve?

Completing a 1-hour interview discussing your child's experiences of bereavement following the death and loss of their sibling diagnosed with cancer.

For more information:

If you are interested in participating or have any further questions, please contact Jessica.

Jessica.antill@student.curtin.edu.au

Are you eligible?

We are inviting people to participate who:

- Have had a child pass away following a cancer diagnosis between 6 months and 10 years ago.
- Have at least one child who is a surviving sibling aged between 4 and 12 years old.
- Live in Australia.
