

Our Cookie Policy

Website usage information and cookies

When you access our website, we may use software embedded in our website (such as Javascript) and we may place small data files (or cookies) on your computer or other device to collect information about which pages you view and how you reach them, what you do when you visit a page, the length of time you remain on the page, and how we perform in providing content to you.

A cookie does not identify individuals personally, but it does identify computers. You can set your browser to notify you when you receive a cookie and this will provide you with an opportunity to either accept or reject it in each instance.

We may gather your IP address as part of our business activities and to assist with any operational difficulties or support issues with our services. This information does not identify you personally.

We use Google Analytics features based on Remarketing, Google Analytics Demographics, and Interest Reporting. These features use first-party and third-party cookies to inform and optimise content based on your past visits to our site.

We also use pixel tracking, which indicates when your computer has visited pages on our websites where a pixel has been installed. As with cookies, this does not identify you personally, only the device you are using.

Google Analytics informs us of how visitors use our site based on your browsing habits, so that we can improve our site to make it easier for you to find the information you are seeking. Google also receives this information as you browse our site and other websites on the Google Display Network using Remarketing.

If you would like to optout of customised Google Display Network services and Google Analytics for Display Advertising you can use Ad Settings. You can also use the Google Analytics Optout Browser Addon so you are not tracked into Google Analytics.
